9. This device and its accessories are not normal household garbage. Please deal with them according to the local laws and regulations.
10. Headphone is designed to charge using standard USB voltage (5v +-0.25v). It is not recommended to charge product using power supplies/sources with higher voltage.

CUSTOMERS IN U.S.A.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receivers connected.
- Consult the dealer or an experienced radio/TV technician for help

Changes or modification not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

This device complies with Part 15 of the FCC Rules.

Operation is subject to the following two conditions:

- ① this device may not cause harmful interference
- ② this device must accept any interference received, including interference that may cause undesired operation.

CUSTOMERS IN UK & EU
